AUTOMATIC LAMINATOR ALM 3220

Model : -

REVOLUTIONARY ! FULL AUTOMATIC LAMINATOR, UP TO 200 SHEETS WITHOUT RELOADING

The ALM 3220 laminator is fully automatic. Just put a bunch of A4 OR A3 documents (up to 200) in the feeding tray and they are coming into the reception tray automatically laminated and cutted (4 edges), with our without margin. No more need for an operator. The cutted waste falls into a basket at the bottom of the machine. The ALM 3220 laminates with roll films, this is much cheaper than laminating pouches. Very easy to use push button's and LCD display panel. Warm-up time : only 5min. Adjustable temperature and speed (up to 120cm/min). Total and batch counter. Accurate document lining up. Very compact : 123 X 56 X 110cm (WxDxH). Available : June 2006
