BOOKLETMAC BOOKLET MAKER

Model : -

DESKTOP MACHINEThe BookletMac table top booklet maker is folding and stapling A3 sheets to A4 booklets and A5 sheets to A6 booklets.

All paper sizes inbetween are possible.

It can also perform side stapling or folding without stapling.

The BookletMac is the most inexpensive binding machine in the world, only two staples for one binding.

Due to the small size it can be used on any desk.

Most easy to use : just feed paper and the job starts automatically. The BookletMac will perform for many years without troubles.
