## PAPER CORNER ROUNDER CCR-40

Model : -

**MOST EASY ADJUSTMENT OF THE PAPER GUIDES**The CCR-40 paper corner rounder is most user friendly :

The paper guides are very easy to adjust, the micrometric wheels with locking systems can be moved by a fraction of a mm.

The large worktable makes it easy to position the paper very accurately.

The cutting mechanism is working with a steel knife and counter knife and makes sharp cuts.

A large tray for trimming waste keeps the working table always clean.

The CCR-40 corner rounding machine can also cut Forex type panels.
