MULTI PURPOSE SINGLE DOUBLE SIDE LAMINATOR RSL-382-S

Model : -

THREE MACHINES IN ONE :- single side laminator-
 encapsulating laminator- cold mounting laminator1 129 EUR
 ex VAT (1 366,09 EUR incl VAT).

TECHNICAL SPECIFICATIONS

Working width : 380mm (27")

Max speed : 4.5M / min (adjustable speed)

Max throughput thickness : 6mm

Film thickness,

- single side laminating : 20 to 40 microns

- encapsulating : max 2x250 microns

- cold laminating : 80 to 150 microns

Document thickness,

- single side laminating : min 200gr - max 800gr

- encapsulating : max max 800gr

- cold laminating : max 5.8mm

Heating system : heating rolls

Roll quantity : 4

Pre heating : 10 min

Continuously adjustable temperature from 0 to 150° C

control panel with microprocessor

Programming by push buttons

LCD display for speed and temperature

"STAND BY" function for quick heating

Automatic shut down when not used

Over heating protection

Pressure control lever

DC motor

Self locking roll holders 2" and 3" + roll holder 1"

Anti curling bar for single side laminating

Rewinder for cold laminating film or "Micronex" protection
 paper

Reverse flow command

Power supply : 100, 200, 220-240V 50/60Hz and 120V 60Hz
 1200W

Net / gross weight : 40 / 52Kg

Size (WxDxH) : 64x55x47cm

Size with packaging (WxDxH) : 80.5x74x50.5cm

Warranty : 1 year
