ELECTRICAL STAPLING MACHINE RAPID 105 E

Model : -

AFFORTABLE ELECTRICAL STAPLER

The Rapid 105 Stapler is configured only for flat "table" stapling jobs. It is completely portable with a clamp for table mounting. The Rapid 105 Stapler can stitch up to 50 flat sheets of 80gr paper. Up to 4 units can be mounted side-by-side and connected by an opto-cable for simultaneous actuation and complete 1-step booklet side stapling. Bump switch : just insert sheets to activate stitcher or use the optional foot pedal. Adjustable throat depth up to 102mm. Adjustable power and depth. When site shield safety guard is raised, unit will not trigger. Opto-Interconnecting cable option for multiple unit operation. Staple Magazines : 210 staples 66/6 or 66/8.
