ELECTRICAL WIRE STICHING MACHINE INTROMA ZD-2SR

Model : -

WIRE STICHING, UP TO 25MM THICKNESS

Type of staple : Standard and Loop (option).

Productivity : up to 180 staples per minute.

Flat stitching : from two sheets up to 25mm 250 sheets 80gr paper).

Stabbing : up to 40 mm (400 sheets 80gr paper).

Saddle stitching : from two sheets to 8mm (80 sheets 80gr paper).

Diameter of wire : 0,5 - 1,0 mm.

Internal width of staple : 13 mm.

Wire consumption per staple : 25 - 73 mm.

Power requirement : 0,4 kW.

Power supply : 380V-three phases or 220V one phase 50/60Hz.

Dimensions : 700x720x1245 mm.

Height of the table : 820 mm.

Single cycles or continuous stitching.

Stitching operation overload, ground-fault and undervoltage protection.

Protection shield coupled with electric control system.

Power : 220V single phase or 380-400V 3 phase.

Net/gross weight : 230/280 kg.

Dimensions of packaging : 80x140x80 cm.

Warranty : 2 years.
